About Me

I'm a passionate front-end developer who thrives on building fast, clean, and interactive user experiences. I specialize in **React** and **Tailwind CSS**, with a love for turning ideas into sleek interfaces that users enjoy.

I'm also currently **seeking an internship opportunity** where I can grow my skills, contribute to real-world projects, and collaborate with experienced developers.

I'm equally happy in a remote setup, at the office desk, or even balancing a laptop on my knees at a café. Whether it's full-time, part-time, or a contract gig, I bring energy, clarity, and a "let's get it done" mindset to the team.

Education

- **Kenyatta University** – Nairobi, Kenya
B.Sc. Mathematics and Computer Science
Expected Graduation: December 2025
- Final project: 1.Sustainable Urban Agriculture and Job Training Initiative system

- **PLP Academy** – Online
Software Engineering – Specializing in Software Testing (Ongoing)

Currently enhancing skills in software testing, algorithms, and software design patterns

Final project: 1.Crop Monitoring System (Django + React + OpenWeatherMap)

Professional Experience

PixelForge Studio – Remote
Front-End Developer (Contract)
Jan 2024

- Built UI for client-facing apps using **React**, **TailwindCSS**, and **TypeScript**
- Integrated **REST APIs**, managed state with **Redux**
- Collaborated with UI/UX designers to implement responsive, mobile-first designs
- Optimized performance (Lighthouse scores 90+)

NovaWeb Agency – Remote Internship

Junior Front-End Developer

Jun 2023 – Dec 2023

- Developed reusable components using React Hooks
- Migrated jQuery codebases to modern **JavaScript (ES6)**
- Participated in code reviews and Agile sprints
- Practiced accessibility and SEO enhancements

✂ Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks/Libraries: React, Next.js (basic), Redux, Tailwind CSS, Bootstrap

Tools: Git, GitHub, VSCode, Figma, Chrome DevTools, Netlify, Vercel

APIs: REST, OpenWeatherMap, TMDB

Testing: Jest (basic), React Testing Library (basic)

🎯 Interests

- **Tech Innovations:** Always exploring new technologies and staying updated with the latest trends in web development, AI, and cloud computing.
- **Open-Source Contributions:** Actively contributing to open-source projects and collaborating with developers worldwide.
- **UI/UX Design:** Passionate about creating user-friendly, beautiful interfaces and improving user experience.
- **Gaming:** A big fan of strategy games and exploring game development in my free time.
- **Learning:** I enjoy learning new programming languages and frameworks to enhance my development skills.

💡 Projects

Netflix Clone – React + TMDB API

- Dynamic movie categories, hover effects, and responsive UI

Weather App – React + OpenWeatherMap API

- Real-time weather updates with search and animations

Portfolio Website – React + Tailwind CSS

- Personal site with dark mode, projects, and contact form
-

Soft Skills

- Strong communication & collaboration
- Self-driven and adaptive
- Detail-oriented & time management
- Agile and remote teamwork experience
